

IMPORTANT!

Are you **sending** by post or with a courier an electronic device with lithium batteries?

Make sure that your package will be accepted by the post operator or the courier company.

Check in the general conditions of carriage of the postal operator or the courier company if they allow the following items:

- power banks
- cameras
- e-cigarettes
- mobile phones
- electrical tools powered by batteries

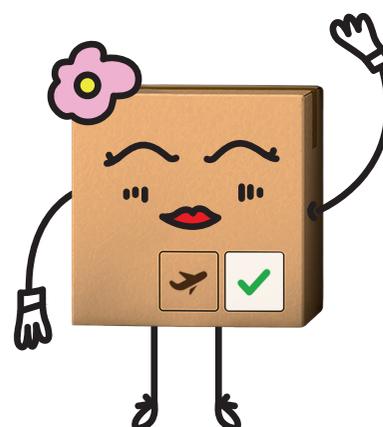

Not all items, including everyday articles, may be sent by post or with a courier.

Make sure that what you are shipping is not forbidden in air transport.

Do you know that **sparkles, perfumes, matches** or **medical articles** sent by post or with a courier may pose a threat for the safety of air transport?

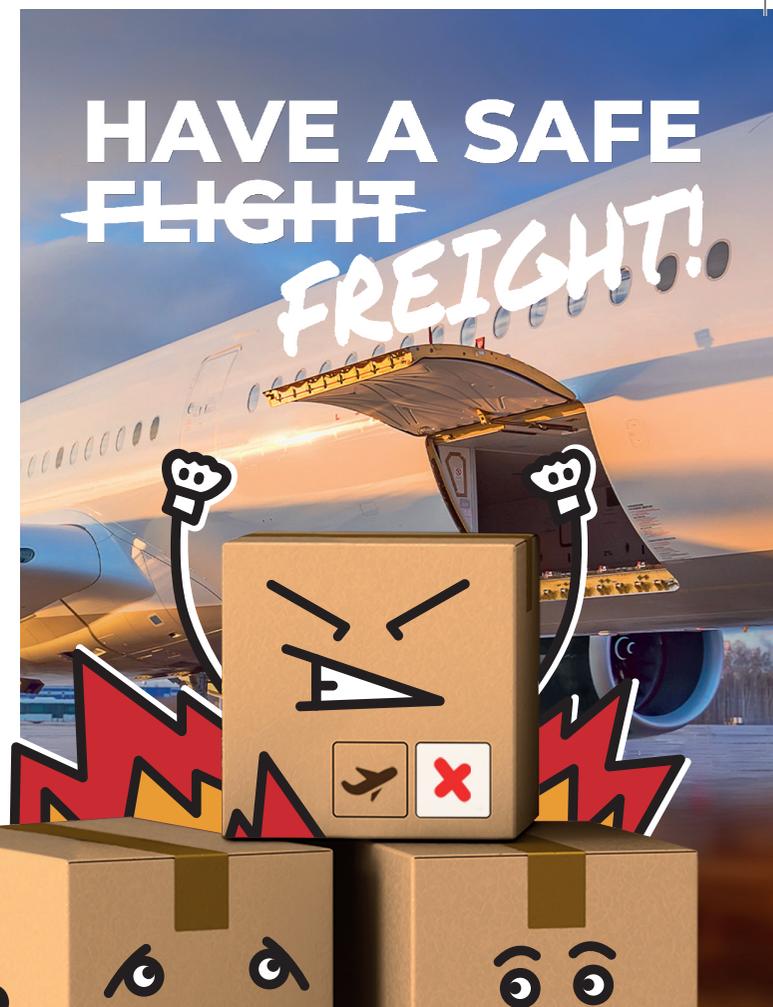

Before you ship a package by air:

- **make sure** that what you are shipping is allowed by the postal operator or the courier company
- if you have any doubts, **contact** the chosen postal operator or courier company and get familiar with the general conditions of carriage

Remember – safe transportation of mail and courier shipment starts at your home!

ulc.gov.pl/bezpiecznegoluku

Ship items safely, without risks, according to the applicable rules of law
