

# The Global UTM Association

- Industry-led consortium
- Non-profit based in Lausanne, Switzerland
- Representing 15 countries
- Across 7 activities
  - Air navigation service providers
  - UAS manufacturers
  - UAS operators
  - UTM software providers
  - Infrastructure providers
  - Regulatory bodies
  - Academic experts

# Mission

The Global UTM Association paves the way for the global adoption of **interoperable protocols** for UTM systems. We intend to **accelerate the growth** of the UAS industry worldwide while maintaining high **safety and security** standards for all, in the air and on the ground.

Global UTM  
Association

# Current Activities

Working Groups	Focus
Overall Architecture	UTM objectives/scope, stakeholders, roles & responsibilities
Data Exchange Protocol	Harmonized data sharing between parts of the system e.g. Ground Control Stations and Service Providers

# **Authorities/industry collaboration 3 concrete steps forward**

- 1. Creation of a global registry of drones and operators**

# **Authorities/industry collaboration 3 concrete steps forward**

1. Creation of a global registry of drones and operators
- 2. Automated access to regulative information sources**

# **Authorities/industry collaboration**

## **3 concrete steps forward**

1. Creation of a global registry of drones and operators
2. Automated access to regulative information sources
- 3. Definition of an economic model (UTM)**
